Chandra S. Vikram Memorial Lectures

Brilliant, innovative, gracious and esteemed are all words that describe the late Chandra S. Vikram. In recognition of his important contributions to optics and his outstanding human character, the Huntsville Electro-

Optical Society (HEOS) is establishing an annual memorial conference. This is an opportunity for scientists and engineers from all fields of optics to carry on the tradition of scholarly excellence and the communal spirit of optics research that Professor Vikram embodied.

We are soliciting 50-100 word abstracts of topics to be presented at a **one day conference** to be held at the **University of Alabama in Huntsville** on **February 28, 2008**. The conference will feature a welcoming address from our special guest, UAH President Dr. David B. Williams.

Topics

- Holography
- Speckle and General Optical Metrology
- Photonics/lasers
- Nanotechnology
- Optical and Opto-mechanical Systems
- Optical Phenomena
- General Optics

Call for Papers

Abstracts due: 30 January 2008

Submit Abstracts to Don Gregory

gregoryd@uah.edu

Submissions imply the intent of at least one author to register, attend the symposium and present the paper orally. No manuscript required. No registration fee, donations welcomed.

Conference Information

Location: New UAH Applied Sciences Building (Shelby Center)

Date: February 28, 2008, beginning at 9am, registration at 8am
